

SuperSentry Basic

For SuperOffice CRM 5

The add-on program SuperSentry Basic makes it easy to customize the user interface in SuperOffice CRM 5.

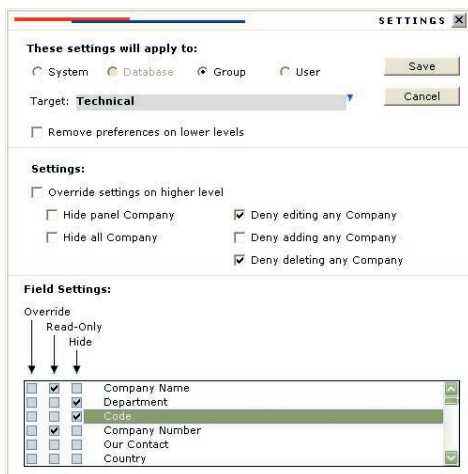

SuperSentry Basic makes it possible to define precisely the fields, lists and panels in SuperOffice CRM 5 to be accessible to different SuperOffice users. Even on field level you can define whether the users are allowed or not allowed to see and edit the different fields and lists in SuperOffice.

Changeable fields

On field level the SuperSentry rights can be set up for the following main areas in SuperOffice CRM 5:

- Company + More tab
- Persons + More tab
- Projects + More tab
- Activities
- Sales
- Documents

Each of the above items contains a large number of different fields and lists for which SuperSentry Basic can change the rights.

Here you can see how to define the fields not to be shown in the user interface. In this example the field "Department" and "Code" are hidden, whereas the other fields are "Read Only". The setting applies to the user group "Technical".

Panels

By means of SuperSentry Basic you can also remove most of the panels in the user interface, e.g. the menu items on the left side of the SuperOffice interface, the tabs under the company card as well as the buttons along the bottom of the display.

However, the tabs are not removed, just deactivated.

SuperSentry Basic can change the rights for:

The menu items on the left side of the interface (are removed):

- Diary
- Selection
- Project
- E-mail
- Reporter
- Travel button
- The user-defined program buttons in the SuperOffice Navigator

The tabs under the Company Card (are inactivated):

- Contact persons
- Relations
- Project
- Activities

The buttons along the bottom of the interface (are removed):

- Appointment
- Task
- Phone Call
- Sale
- E-mail
- Write

Definition of rights

It is entirely up to you, to whom the rights in SuperSentry shall apply. When you define a right, you select the level for which it is to apply. The SuperSentry rights can be defined on the following levels:

- User
- User Groups
- Database
- System

SuperOffice Solution Provider

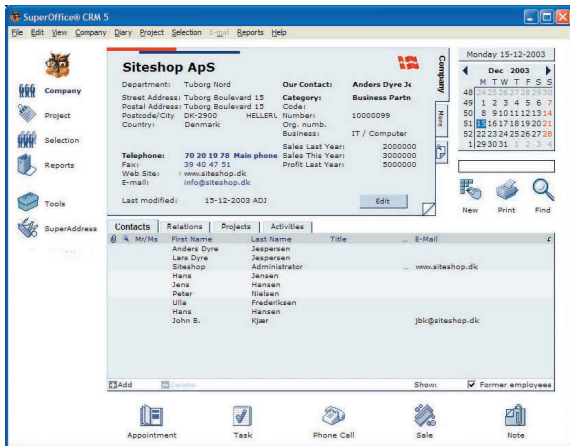

SuperOffice assumes no responsibility for products developed by third party products used together with or in connection with SuperOffice software. The solution provider shall defend, indemnify and hold SuperOffice harmless from any third party claims, from the use of the SuperOffice Products under these terms. SuperOffice warrants the SuperOffice product according to its end user license agreement only when no changes have been made to the product.

SuperSentry Basic Technical Specifications

Example:

Display of SuperOffice CRM 5 without SuperSentry

Display of SuperOffice CRM 5 using SuperSentry. Please note the following changes: The Number, Department, Phone and E-mail fields have been removed. The panels Diary, and E-mail to the left and the Write and E-mail in the bottom, have also been removed.

Information

SuperSentry Basic is a so-called "Administrator" program, i.e. the program is normally used by the SuperOffice administrator and not by the SuperOffice users.

SuperSentry Basic functions on all databases supported by SuperOffice CRM 5 – MSSQL, C-tree, Oracle, etc.

SuperSentry Basic functions on the Windows client as well as on the SuperOffice CRM5 Web version.

Download

It is easy to download SuperSentry Basic from www.siteshop.dk and to install the program according to the simple installation guide.

System requirements

SuperOffice CRM 5 ver. 5.5+

Order SuperSentry

Order and download from www.siteshop.dk
Contact your SuperOffice dealer, or phone Siteshop (+45) 70 20 19 78

Demo mode

If you start SuperSentry Basic without a correct license key, the program will run in demo mode, so that you can see the different settings in SuperSentry, but without being able to activate them.
